ABOUT ME

I am a Frontend Developer with a passion for crafting delightful digital interfaces. My journey includes collaborative projects that aim to create user-friendly and visually appealing web experiences. I am eager to contribute my skills to a nurturing development environment where continuous learning is valued. Committed to continuous learning and staying updated with the latest industry trends.

MY PROJECTS

1. AccuMed Diagnostic Center

[Live Link](#) || [Client Code](#) || [Server Code](#)

Project Description:

One user can book a test and sort test by date. By booking a test available slots will be decreased. This website has 2 roles for admin and user for managing the test and test results. Admin can manage user, change or add banner image, add test, delete test from admin dashboard.

Used Technology :

React, Firebase, Swiper, Tailwind, Daisyui, JWT, Express and MongoDB, Stripe Payment.

2. JobNest

[Live Link](#) || [Client Code](#) || [Server Code](#)

Project Description:

A job searching and posting website. Users can post for a job also can apply for jobs that are not posted by them. Applicant number in a job post will decrease in every apply. There is also search functionality to search for jobs.

Used Technology :

React, Firebase, Swiper, Tailwind, Daisyui, JWT, Express and MongoDB.
